

HYDRATION | PACKS | SANDALS | 2018

Man and Nature have a timeless connection.
It is the SOURCE of inspiration for everything we do.

Yoki Gill
Founder

IN SEARCH OF THE SOURCE WE ARE COMMITTED TO:

- **Satisfy** the genuine needs of people who inhabit the outdoors.
- **Bring** original, functional, long-lasting gear to the market place.
- **Incorporate** human values in all aspects of our business.
- **Encourage** ourselves to identify with our collective goals and share responsibility.
- **Liberate** our working environment by excluding all forms of prejudice.
- **Embrace** human relations as an extended family within our company.
- **Advance** towards the goal of environmental sustainability.
- **Initiate** social change that makes unity and equality a common practice.
- **Make** curiosity, joy, respect, passion and caring part of our daily lives.

HYDRATION

BETTER by
TECHNOLOGY

Wide Opening Access

Unique wideslide™ hydration system, allows access through the wide opening with an airtight seal by smooth slider operation. Easy to clean, easy to fill using water or ice. Quick drain and dry. U.S Patent No. 7,648,276,82

Taste-Free™

High-tech co-extruded film and tube retain water with no plastic aftertaste.

Grunge Guard™

Grunge guard™ Technology inhibits bacteria growth on the reservoir and drinking tube surfaces for the life of the system. Technology utilizes FDA approved and EPA-registered anti-microbial agent.

Glass Like™

Glass-Like™ Film Technology. A multi-layer Polyethylene film utilizing SOURCE's Glass-Like™ technology, which prevents bio-film build up making the system self-cleaning. SOURCE's Glass-Like™ Film is 2000% smoother than standard TPU films, with virtually no difference from glass itself.

Care-Free™

A new generation in hydration systems, in which cleaning is no longer an issue. Simply refill and drink again and again without special care. The same water will remain fresh for days and even weeks.

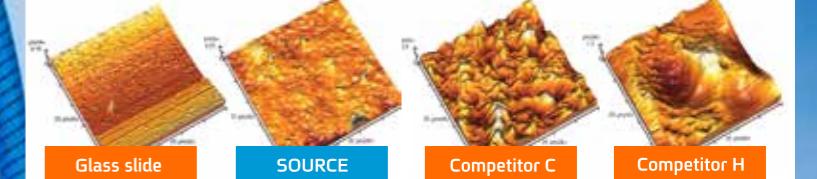

BPA Free

All our hydration systems and our bottles are BPA and phthalate free down to the last component.

WHAT DO WE MEAN BY GLASS-LIKE

SOURCE Hydration is 2,000% smoother than competitors

The atomic force microscope shows: Our film is almost as smooth as glass. This means less chance for bacteria to hang on and less bio-film building up. Which means no mouldy taste in the water. Which means almost no cleaning or maintenance is needed.

WIDEPAC™

Our state of the art original Widepac, with a wide opening that makes filling and drying of the reservoir easier than any other.

2060220215 | 1.5L/50oz
2060220202 | 2L/70oz
2060220203 | 3L/100oz

WIDEPAC™ LP NEW!

The new Widepac LP (Low Profile) keeps its narrow shape even when full, thanks to the baffle wall in the middle of the reservoir.

2061480202 | 2L/70oz

WXP™ LOW PROFILE

Our WXP is now Low Profile! with baffle wall, this bladder keeps it's shape when filled, for a smoother fit inside the pack.

2060690202 | 2L/70oz
2060690203 | 3L/100oz

DESIGN &
INNOVATION
AWARD 2015
ENDURO
MAGAZINE

D|VIDE

The 2 in 1 Hydration System that's been adopted by thousands of athletes! The D|Vide Widepac features two compartments for water and energy drinks. 2 separate tubes allow drinking from either source of hydration at any time. Winner of the 2015 Design and Innovation Award by ENDURO Magazine: "The SOURCE D|vide is more than just a good idea. The quality of the workmanship, the simple cleaning, and the pleasant, high-volume bite valves all convinced us. A drink bladder that could become a trustworthy companion on all upcoming adventures, and for more than one season!"

2061520102 | 2L | 70 oz
2061520103 | 3L | 100oz

WIDEPAC PREMIUM KIT

This new Widepac kit comes with a weave covered tube for UV protection, making sure nothing grows inside the tube, and a magnetic clip for easy stowing of the the valve during rides.

2061720202 | 2L/70oz
2061720203 | 3L/100oz

ULTIMATE HYDRATION SYSTEM

We packed into one system everything one could ever wish for from a hydration system... Inside you'll find our select inventions: **UTA™** - the rapid refill adaptor that allows you to refill the bladder without taking your pack off your back.

A weave covered tube (protected from UV rays) with a **Helix™** Bite Valve and **Quick Connectors** on both ends of the tube for easy attachment to the bladder and easy changing between the valve and the **UTA™**.

Magnetic Clip for easy tube stowing while on the move.

2061420202 2L | 70 oz

2061420203 3L | 100 oz

UTA™ TUBE KIT

The UTA Tube Kit allows re-fills without taking your pack off. Simply use the UTA to connect your drinking tube to a bottle or tap and re-fill your reservoir without removing it from your pack. No more unpacking for a re-fill! Kit contains: **UTA™**- Universal Tube Adaptor | **94cm Tube** with quick connectors | **Helix™** Bite Valve.

2501800000

CONVERTUBE™

Turns almost any bottle into a hydration system, giving you the ability to drink on the move to the last drop, through the adjustable tube, without taking the bottle out of the pack. The kit contains 4 adaptors, a tube with the **Helix™** Bite Valve and a **Dirt Shield™**. Fits four cap sizes: Ø26, Ø30, Ø63

2031160200 SNEP

DRINKING TUBE™ + FILTER

CONNECTS TO MOST HYDRATION SYSTEMS

Already have a hydration system?
this tube will connect with a snap and turn your system to a filtering unit. The kit includes a plunger for backwashing the filter for periodical cleaning and maintaining high performance.

2530300200

WIDEPAC™ + FILTER

A COMPLETE COMPREHENSIVE KIT:

A 2L WIDEPAC WITH IN-LINE FITTED SAWYER MINI FILTER

The Widepac™ wide opening allows you to easily fill up from any stream or source. Drinking through the inline filter makes sure you drink only clean and healthy water. The kit includes a plunger for backwashing the filter for periodical cleaning and maintaining high performance.

2530220202

CONVERTUBE™ + FILTER

TURNS ALMOST ANY BOTTLE INTO A FILTERING HYDRATION SYSTEM

Now with a Sawyer filter in line, this kit turns almost any bottle into a filtering hydration system! 4 different adaptors fit 4 sizes of bottle caps. An adjustable tube makes sure you can drink to the last drop. The kit includes a plunger for backwashing the filter for periodical cleaning and maintaining high performance.

2530260200

**Brush kit**

To clean your tube of any residue

2120100000

**Widepac Insulator**

This insulating sleeve cover adds insulation and protection to any hydration system. Lab tests show freezing and heating are slowed down by 50%. Widepac not included.

2510700002 2L | 70 oz

2510700003 3L | 100 oz

**Winter Tube Kit**

Turns a standard hydration system into a winter system by replacing the tube with a special insulated tube and a Storm Valve™.

2501200000

**Tube Insulator**

Zippered insulating sleeve for your hydration tube. Attachable to any hydration pack. With designated small pocket at valve-end to add a hand-warmer device.

2110100000

**Weave Covered Tube Kit**

Weave covered tube for extra durability and UV protection that helps keeping the tube clean. Includes a Helix™ valve, Dirt-Shield™ and SQC™ connector.

2501500000

**Helix™ Tube Kit**

Compatible with all Source hydration systems, includes Helix™ Bite Valve, Dirt Shield and male quick-connect.

2501600000

**Magnetic Clip**

A smart and simple magnetic tube holder clip, easily attachable to a shirt or shoulder strap, allowing complete ease of use.

2510600000

**Liquitainer™ Pro 1L**

The Liquitainer, our soft drinking bottle, connected to a short tube and our Helix™ bite valve creates the perfect solution for the kayaker wishing to carry just 1L inside his vest to drink hands-free.

2031250201

**Liquitainer™**

This is your perfect everyday companion. Easy to fill and drink. Stands up when full, folds flat and disappears when not in use. The Glass-Like™ film keeps the fresh taste of the water. FREEZE TO HOT- put it in a freezer or fill it up with hot water!

PACKS

FOR WHATEVER TAKES
YOU OUTDOORS

Source Hydration Packs provide professional and functional carriers integrated with our hydration systems, designed for **high performance and practical use**.

We offer a diverse selection tailored for today's variety of outdoor activities.

NEW COLORS FOR 2018

DESIGNED FOR HYDRATION

In all our packs the hydration compartment is separated from the cargo with a **separate access**.

The hydration compartments in SOURCE Packs are padded to insulate your source of hydration, keeping the water cooler for a longer time.

Tubes can be **routed** from either side.

A **hanger** keeps the bladder upright at all times.

RAPID

Our mid-size hydration pack offers variable storage space with its detachable pouch. Two mesh-pockets for gels or energy bars and a zippered pocket for a mobile phone of any size offer storage for essentials. Includes 2L Hydration System.

2L HYDRATION | 70OZ

2052528102 Black / Orange

2052528202 Coral / Blue

2052528402 Purple / Pink

FUSE | 8L

A compact reduced size pack that can truly fit! With 8L cargo space, you can still carry tools and snacks and enjoy this lightweight and super comfortable pack. Excellent fit for women and entry level riders.

2L HYDRATION | 70OZ

2051928108 Black / Orange
2051928208 Coral Blue
2051928408 Purple / Pink

FUSE | 12L

A lightweight mid-volume pack that keeps you light on the trail. 12L of cargo is just what you need for a short ride or hike. Your gear is separated between three easy to organize compartments, including a padded one for protecting your mobile. A structured back system allows ventilation of the spine area of the back.

3L HYDRATION | 100OZ

2051928112 Black / Orange
2051928212 Coral Blue
2051928312 Black / Fluorescent Yellow

RAIN COVER
INCLUDED **AIR FUSE | 12L NEW!**

The Air Fuse takes our popular lightweight Fuse 12L Pack and adds a ventilated structured back for additional comfort, especially appreciated in hot environments. This makes the Fuse Air a finely balanced Hydration Pack providing light-weight simplicity with added comfort perfect for any outdoor activity.

3L HYDRATION | 100OZ

2053428112 Black / Orange

2053728312 Black / Fluorescent Yellow

RIDE | 15L

The RIDE fits any ride! It's compact and lightweight but still hides a few expandable options. An insulated hydration pocket and 3 cargo compartments offer plenty of room to get your stuff organized. A zippered expanding main pocket and room for external storage between the pockets make sure everything fits in. The reinforced backside pocket is designed to protect tools and keep them handy.

3L HYDRATION | 100OZ
2052428115 Black / Orange
2052428215 Coral Blue
2052428315 Black / Fluorescent Yellow

PARAGON | 25L

A day hike and bike hydration pack offering the most extensive cargo capacity of all SOURCE Hydration packs, while keeping weight minimal. A mesh back and stabilizing frame give the PARAGON a light and comfortable fit and also maximum ventilation to your back. Includes padded pouch for sunglasses or phone, a rain cover and organizer inside pockets.

HIPSTER WAVE

This new Hydration belt allows you to carry 1.5 liters of water and the essentials for heading out for a good row. Carrying the weight around your waist takes weight off your shoulders and spine, while paddling is free and easy. The belt incorporates a dry bag for carrying essentials (though not guaranteed for electronic devices) and a magnetic clip allows easy stowing of the tube.

1.5L HYDRATION | 50OZ

20531A0015 Black

20531A6215 Turquoise

VERVE

A low profile pack design makes this pack stay very close to your back with "little to none" offset to your center of gravity. Arms and shoulders are free to move and row. Fits over most life vests.

2L HYDRATION | 70OZ

2053390002 Black
2053396202 Turquoise

DURABAG KAYAK

An insulated hydration pack with a 140cm long tube that can be placed anywhere in a kayak. Bungeed to the top or under your feet. The valve can be kept next to your mouth to allow drinking on the move. The pack has 3 optional tube outlets to choose from. Bungee cords make it easily secured. High friction stripes on the back prevent it from slipping around.

2.5L HYDRATION | 85OZ

2053070025 Black
2053076225 Turquoise

The Brisk hydration pack is a low-profile and lightweight solution for carrying water. It features a 1-liter pocket for essentials and a hydration tube with a Helix™ valve. The pack is shown in two views: front and back, with a small inset showing a side view.

BRISK

A low-profile and lightweight solution for carrying water. Choose between 2L and 3L to better fit your size and your needs. Off you go!

2L HYDRATION | 700Z
2052028502 Gray / Black / Fiesta
2052028202 Coral Blue

3L HYDRATION | 1000Z
2052028503 Gray / Black / Fiesta
2052028203 Coral Blue

The Durabag Pro is a versatile hydration system with detachable straps. It can be used as a hydration pack, attached to a backpack, or used as a cover for the Durabag. The Durabag is a low-profile cover that provides insulation and protection for the hydration system. Both are shown in various views (front, back, side) and colors (teal, black).

DURABAG PRO

With detachable straps you can easily use the DURABAG PRO as a hydration pack, shove it into your backpack or attach it onto the pack making this pack versatile and ready for any adventure. A small pocket serves for carrying money and snacks. Filling is through the filler cap. Comes with a weave covered tube and a Helix™ Valve.

2L HYDRATION | 700Z
2052148502 Gray / Black / Fiesta
2052148202 Coral Blue

3L HYDRATION | 1000Z

5L HYDRATION | 1700Z
2010148505 Gray / Black / Fiesta

DURABAG

Rhino safe, the Durabag cover gives the hydration system durability and improved insulation that helps keep water cool for a longer time. It is low profile to easily fit into any pack but can easily be attached outside the pack to save space by using the four strap clips. Being RHINO SAFE - you never have to worry about a bladder exploding! Even if you need to throw your pack down a climb, or if you take a fall. Ideal for skiing and mountaineering. Comes with a weave covered tube and a Helix™ valve.

RAIN COVER
INCLUDEDWIDEpac
COMPATIBLE**ADVENTURE 30+5L NEW!**

The larger version of the Adventure adds more space and a comfortable upgrade of the hip-belt to carry weight and stabilize the pack even when loaded all the way. The wider and padded hip-belt also offers two elastic mesh-pouches, easily accessible on the move.

2010508535 Gray / Black / Fiesta
2010508235 Coral Blue

SPRY

Winner of ENDURO Magazine INNOVATION & DESIGN AWARD: "Even on the smallest of backs it doesn't jump around in a dangerous way, as is the case with packs that are too big. The quality is at the same level as adult-sized products, but the bladder size has been sensibly reduced." The 1.5L Widepac has a separate compartment not to interfere with the cargo. Two different zipped pockets for carrying snacks and essentials, and an external cargo space for carrying a jacket. Mesh shoulder straps and back allow ventilation. Perfect for kids!

1.5L HYDRATION | 50OZ

2051825801 Light blue / Green
2051826801 Purple

SPINNER NC

A streamline designed pack for primary school kids to go biking or hiking. The pack is easily filled through the filler cap without having to take out the bladder. A small pocket allows carrying keys and snacks.

1.5L HYDRATION | 50OZ

2050115815 Blue / Green
2050116815 Purple

DOUBLE D 45L

Other than giving the pack it's name, the front compartments are easily reached and make a great storage space for things you need on the go. The main compartment is accessible from the top but also has a zipper for suitcase opening which makes this pack great for travelling.

SANDALS

FOR EVERYDAY ADVENTURES

SOURCE sandals have taken part in countless outdoor hiking, trekking, travelling, paddling, climbing, camping adventures around the world for almost 30 years. The legendary SOURCE quality, comfort, durability and smart design never go out-of-fashion.

SANDALS TECHNOLOGY

A.R.T1™ - A.R.T GRIP Footbed
(Advanced Rubber Technology)
SOURCE's genuine rubber compound for top soles. The unique concept of using a rubber top sole in a sandal ensures long-lasting grip and ventilation. Anti-microbial agent prevents sandal odor.

A.R.T2™
SOURCE's Genuine rubber compound for bottom soles. Non-Marking, Non-Slip high friction sticky sole even in wet conditions and very high abrasion resistance.

X-Strap Patent
U.S Patent No. 5,561,919
Independent adjustment of heel, forefoot and arch straps.
Straps give you precise adaptation to your foot and your activity.

Soft Fast-Drying Straps
Soft tubular polypropylene strap webbing dries twice as fast as commonly used nylon/polyester webbing.

CARMEL | WOMEN | NEW!

The Carmel takes you outdoors without compromising your look. The extra-light straps give an airy feel and are fast-drying, perfect for a walk on the beach or along a creek. The Carmel sandals for women blend in wherever you take them: The trail, the beach, at a party. The three-layered sole with comfortable EVA footbed and anti-slip rubber outsole guarantees a safe and stable step.

URBAN DAYPACKS | NEW!

The new SOURCE Urban packs are designed for downtown, not downhill.

The smart features and the new SOURCE look are perfect for work, university, school or a day at the museum.
